

G.C.E. (O/L) Examination - 2020

Common techniques of marking answer scripts.

It is compulsory to adhere to the following standard method in marking answer scripts and entering marks into the mark sheets.

1. All assistant examiners must use a red colour ball point pen for marking answer scripts.
2. Chief Examiner must use a mauve colour pen.
3. Note down Examiner's Code Number and initials on the front page of each answer script. The digits must be written clearly when marks are indicated.
4. Write off any numerals written wrong with a clear single line and authenticate the alterations with Examiner's signature.
5. Write down marks of each subsection of each question in a \triangle as a rational number and write down the final marks of each question as a rational number in a \square . Use the column assigned for examiners to write down marks.
6. The arithmetic checker (EMF) must use a blue or black pen to indicate the checking.

Example:

Question No. 03

(i)	✓	$\triangle \frac{4}{5}$
(ii)	✓	$\triangle \frac{3}{5}$
(iii)	✓	$\triangle \frac{3}{5}$
03	Total	➡	$\square \frac{10}{15}$

Structured essay type and essay type answer scripts:

1. Cross off any pages left blank by candidates. Underline wrong or unsuitable answers and mark them as wrong. Show areas where marks can be offered with check marks.
2. Use the right margin of the overland paper to write down the marks.
3. Write down the marks given for each question against the question number in the relevant cage on the front page in two digits. Selection of questions should be in accordance with the instructions given in the question paper. Mark all answers and transfer the marks to the front page. Write off answers with lower marks if extra questions have been answered against instructions.
4. Add the total carefully and write it in the relevant cage on the front page. Turn pages of answer script and add all the marks given for all answers again. Check whether that total tallies with the total marks written on the front page.

Preparation of Mark Sheets.

- I. Except for the subjects with a single question paper, final marks of papers will not be calculated within the evaluation board.
- II. The Final mark relevant to each paper must be entered to the mark sheets separately.
- III. Enter marks of paper I in "Total Marks" column of the mark sheet and write them in words as well. Follow the same procedure to complete the mark sheet of paper II.

Note

- I. Final marks for paper I and paper II should always be entered to the mark sheet as a whole number. They should never be kept as decimals or half values.
- II. The examiner who entered marks, the examiner who checked marks, the EMF and the chief examiner must certify the accuracy in all page of the mark sheets with their code numbers and signature.

IMPORTANT POINTS

Please note

- All sections of each test item are marked, and added correctly.
- In writing tests, marks given under each criterion are added to get the total marks.

eg.

C	-	3
L	-	2
O	-	1
M	-	2
Total		<u>8</u>

- All written answers have to be read carefully, spending a considerable time before deciding on the mark.
- To be quick in order to finish early should not be the attitude.
- Standardization helps you to become a confident marker.
- Marking is an experience which enhances your knowledge about teaching, learning and testing.
- Please follow the guidelines given in the check list for the Chief Examiners.

Assessing writing

Please note

- To pay attention to the length of the answer in awarding marks for the content.
- If 0 (zero) marks are awarded to the content, do not award marks for language, format, organization and mechanics of writing.
- If 0 (zero) marks are awarded for language, do not award full marks for content.

○ Test 7

Read the following text and **underline** the correct answer.

I still remember how anxiously I was waiting for our monthly visit to grandma's house. I was so excited that I couldn't sleep until the day I left for grandma's. As soon as we got to grandma's house, we always went to the kitchen. There, grandma would give us a burning hot bowl of soup and we enjoyed it very much. Grandpa also would give us each a bar of chocolate that melted in

⑤ our mouths soon.

Just off the kitchen, was grandma's living room. High on the wall was an antique clock. At the far end of the room were grandma's short octagonal cabinets with round tops.

Grandma also had a place for us to play. It was the old garage. There were some cars, not just regular cars but wonderful old cars. When the engines of those cars started, they sounded like

⑩ lions roaring.

When the time came to leave grandma's house, we were always sad. We would miss grandma's fresh glass of milk in the morning and grandpa's loud laughter. Sometimes we would hide under grandma's great big bed hoping our parents would leave without us. **Eventually**, they always found us.

(1) How often did the writer and his family visit grandma?

- (a) once a month (b) once a year (c) once a week

(2) What did grandpa offer them?

- (a) a bowl of soup (b) a glass of milk (c) a bar of Chocolate

(3) Where was the antique clock?

- (a) high on the wall (b) in the kitchen (c) on the cabinet

(4) 'Eventually' in line 13 means;

- (a) finally (b) gradually (c) soon

(5) What is the correct order of events which happened at grandma's?

- (a) playing in the garage, hiding under grandma's bed, eating a bar of chocolate
(b) eating a bar of chocolate, playing in the garage, hiding under grandma's bed
(c) eating a bar of chocolate, hiding under grandma's bed, playing in the garage

○ Test 15

Read the following text and answer the questions given below.

Life of Sea Otters

- ① The relationship between a mother and her pup shows the most intimate association in a sea otter's life. The adult male provides no parental care, which is typical for most mammals. However a female sea otter spends a great deal of time and energy in caring for her **offspring**, which depend on her for nourishment and protection.
- ② A mother and her pup are never far apart during the entire time. A pup spends most of its time riding on its mother's belly. Even very large pups, six months or older, may still try to "climb on board". You can't help but feel sorry for a mother struggling to paddle with a pup nearly **her** own size riding on her stomach!
- ③ A mother's protective behaviour towards her offspring is obvious to anyone. Scientists have made interesting observations on mothers' and pups' behaviour. One mother was found fondling the dead body of a pup and attempting to groom the dead body. In Monterey Harbour, one female who had just lost her pup was seen mothering a plastic bottle - holding it under her chin and fondling **it** as if it were her pup. One brave mother actually climbed into a boat to rescue her large pup.
- ④ While being attentive to their own young, females rarely care for another mother's pup, probably in part because there's little chance that a mother who has lost her own pup will **encounter** an orphan.
- ⑤ A pup gets most of its nourishments by nursing from its mother for the first two months of its life. Although the mother continues to suckle her pup throughout the dependency period, the pup gradually adds more solid food to its diet.
- ⑥ A female's two nipples are often visible on her lower abdomen when she is producing milk. Like other marine mammals, sea otters produce milk that's extremely rich in protein and fat and low in lactose or milk sugar.

- (1) State whether the following statements are **True** or **False** by putting a tick (✓) in the relevant column.

	True	False
(1) Only female sea otters provide parental care.	✓	
(2) Pups leave their parents when they are six months old.		✓
(3) A female otter is very unlikely to care for another mother's pup.	✓	
(4) Sea otters' milk does not contain lactose.		✓

16 c. Sources of Information.

Information can be considered as the processed data. They are reliable, complete and relevant. We need information for our day-to-day activities. Everyone in the world, irrespective of their age, gender etc., needs to know information. Being informative makes us more comfortable when we are dealing with other people in the society.

There are many sources of information. Television, newspapers, books, journals and web pages are the most common sources from which people obtain information. Nowadays, social media, mobile phones, etc. play a major role as modern sources of information. Newspapers and ebooks also can be considered as the sources of information. These days, people mostly use ebooks, e-newspapers, social media, etc. as sources of information. There are less expensive sources of information as well as expensive ones.

Out of all these sources of information, I use the mobile phone, television, social media and newspapers to obtain information as they are the ones which are freely available. Using social media, we can get a lot of information about the world. Information from every nook and corner in the world

can be obtained using the internet. E-newspapers are a very cheap way of obtaining information and they have become very popular among people. I always refer to newspapers and get information about the present situation of the world.

There are many advantages of using these sources of information. They give quick access to information and they provide entertainment too. They are very helpful and reliable. Books, televisions, and newspapers are some sources of knowledge. Films, cartoons, beautiful stories and poems also provide us with entertainment. There is a common saying, "Reading maketh a full man." So, this saying bears witness to the advantage of using the sources of information very effectively. To be an outstanding personality among other people, we should have knowledge, intelligence, manners, and good habits. Actually, these sources of information play a major role in building balanced personalities.

The above discussion shows the common sources of information and the advantages the people get because of them. We should use more and more sources to become resourceful and well-equipped personalities in the society.
